11 April 1979

MEMORANDUM FOR THE RECORD

25X1

Staff Meeting Minutes of 11 April 1979

The Director was at his EOB office; Mr. Carlucci chaired the meeting.

McMahon reported briefly on a few items, including: 25X1

-- Thus far, there have been 90 executions in Iran since the Khomeini takeover. 25X1

Bowie reported on Izvestia's growing attacks on U.S. use of U-2s and bases on Cyprus for reconnaissance over regions adjacent to the USSR's southwestern border. 25X1

25X1

Hitz reported also on the recent Cranston luncheon, which included such attendees as Senators Chafee, Bumpers, Kennedy, Inouye, and Glenn. 25X1

Hitz suggested that it could be useful to invite Senator Huddleston to Headquarters for discussions on charter legislation before Tony Lapham leaves his post. This would probably help to break the current deadlock in the Charters Committee. The Committee seems to be confused by signals from the White House, centering for one thing on the Hughes-Ryan Amendment. Mr. Carlucci pointed out that the Hughes-Ryan Amendment in this instance is not truly significant. Mr. Carlucci feels that a memo on this whole matter to the Vice President might help to get things moving. He asked Lapham to develop one. (Action: GC) 25X1

Wortman reported on Bob Gambino's analysis of intelligence leaks over the past 19 months. (Report is on its way to the Director.) In sum, no indication was found of leaks emanating from the intelligence collection and production arenas. The leaks are occurring in the intelligence consumer arena, probably for political purposes. 25X1

Wortman noted also that we have not yet seen the OMB paper on paid parking as it pertains to CIA--it is possible that at least a nominal fee per parking space may be in the offing as part of or in addition to GSA's Standard Level User Charge (SLUC). 25X1 25X1
